

Press Release
Oct 26, 2010

Visit Crestron at InfoComm Asia 2010 at Booth 6A01
let's see what's more you can experience there!

Crestron, being the world's leading manufacturer of advanced commercial control systems and home automation systems, is introducing innovative and absolutely impressive products and technologies at InfoComm Asia 2010.

InfoComm Asia 2010 will start from Wednesday November 17 to Friday November 19 at Hong Kong Convention & Exhibition Centre. In this 3-days exhibition, Crestron features the application of integrated building technology and DigitalMedia 8G series will be the highlight of the show as it is firstly launched in Asia. DigitalMedia series - the world's first 8GB AV distribution and most powerful control network - with new Room Controllers *DM-RMC-100-C* and transmitter *DM-TX-201-C*, lets you have a complete integrated solution to enjoy the HD performance in this digital age. Other must-not miss products include

CLS-C6 iLux™ In-Wall Lighting System, which gives you a convenient wall mount lighting controller to control lighting and shade cost-effectively; *GLPAC-DIMFLV Integrated Lighting System*, which is designed for use as a standalone lighting controller in commercial area providing 4 or 8 channels of florescent dimming in a single cabinet which is easy to specify and install.
