

## Taiwan DeBao Mansion Goes with Crestron System

Located in Ren-ai Road, Taipei, DeBao Mansion is one of luxury residential towers in Taiwan. DeBao commands a stunning panoramic view of a green landscape with international club houses, grand ballrooms and an exceptional garden. DeBao is a stunningly conceived and expertly executed state of the art residential tower which boasts enough Crestron home automation technology.

The Crestron system installed: SmarTouch STIXI-1700C and MiniTouch MT-100C wireless touchpanel; Isys TPS-200L wall mount touchpanel; MiniLCD ML-600 handheld remote; MC2E and AV2 processors; iLux integrated lighting system CLSI-C6 and CLSI-C6M, allows seamless control of the entire home automation from home theatre system, to multi-room audiovisual, programmed lighting and electronic blinds, interior and exterior CCTV, and door entry sub-systems.

At DeBao, Crestron control system helps to eliminate the need to walk from room to room to adjust drapes, lights, temperature, and

audio/video components. Whether from an easy-to-use colour touchpanel, remote or a customized keypad, total control is always at your fingertips. With just a single touch on the touchpanels, the lights dim, the shades close, and the TV turns on. Using Crestron eControl, householders could control and manage all the equipment at home through PC, PDA or iPhone anytime, anywhere.

With iLux integrated lighting automation and control, lighting sets the perfect scene and creates the desired ambience for any occasion, such as movie night, dinner, party and sleeping. The lights can execute pre-programmed scenes to simulate established lifestyle patterns. The window treatments are programmed to adjust at pre-set times to reduce glare and

protect delicate fabrics from harmful direct sunlight. Using iLux CLSI-C6M, internal lighting can be programmed to dim according to ambient light levels, season, time and occupancy.

This project demonstrates the extensive capabilities of Crestron technology solutions. With Crestron integrated control system, this property is truly stunning both inside and out. Among many factors that go into high end luxury property development, Crestron home automation is the finishing touch.
