

The Venetian Macao-Resort-Hotel Goes With Crestron System

The Venetian Macao-Resort-Hotel is the largest single structure hotel in Asia and the second largest building in the world. It opened on August 2007. The hotel is a renaissance Venice-themed property featuring stunning replicas of Venice landmarks such as St. Mark's Square, the Doge's Palace, Campanile Tower, and canals with gondolas and singing gondolier.

The Venetian Macao has 3,000 all-suite guest rooms, 111,000m² meeting, convention and exhibition space, 149,000m² retail space, 15,000-seat Venetian Arena and 111,480m² of 1,800 seats Venetian Theatre. The casino floor is 51,000m² which is the largest in the world. To bring unforgettable experiences for the guests, the hotel provides fabulous facilities, attractions and amenities.

Crestron has successfully setup an integrated automation control system for The Venetian Macao-Resort-Hotel. Crestron AV and lighting control systems are installed in the VIP Suites, Paiza Club and meeting rooms helping the hotel to provide more efficient and convenient service.

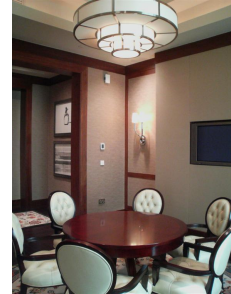

Suites

The Venetian Macao has 34 Paiza Suites and 64 Hospitality Suites. Both suites are reserved to high-rollers and VIPs. Each Suite includes bedrooms, bathrooms, a media room, spacious living and dining areas and a butler's pantry. The lighting systems, consisting of PAC2M processor, 4-channel electronic low-voltage CLXI-1DELV4 dimmer module, and 4-channel CLXI-1DIM4 dimmer module, provide centralized lighting control. Customers can feel free to adjust the lights, curtain and sheer via Cameo keypads C2NI-CBUK for creating different kinds of mood. The reading light mode is specially designed for the customers to enjoy reading at night.

All the AV equipment, including television, air-conditioner and audiovisual facilities, is controlled by PRO2 processor via Isys i/O 3.5" TPMC-4X handheld WiFi touchpanel, Isys 15" TPS-15G-QM tilt touchpanel, Isys 5" TPS-200L wall mount touchpanel, Isys 10.4" TPS-4000 tilt touchpanel and WPRI-48 waterproof handheld touchpanel. Handheld touchpanels provide wireless remote control of any room. Crestron control systems help to simplify the control over all AV equipment by a single

touch on the touchpanel.

Paiza Club

Paiza Club is the VIP gaming area, especially for high-rollers and premium guests. The Paiza Club is divided into several individual private gaming rooms. The AV system of the club is controlled by Pro2 processor through Isys 6.4" TPS-3000 tilt touchpanel, Isys 10.4" TPS-4000 tilt touchpanel and Isys 5" TPS-2000L wall mount touchpanel. Crestron control system greatly simplifies the video switching of various channels.

Meeting Rooms

The meeting areas of 111,000m² can be separated into numerous meeting rooms with different sizes. Crestron control system based with 9 units of CP2E processors is used for controlling the audio and lighting systems. Equipment includes: CP2E processor, APAD wall mount LCD controller and Isys 6.4" TPS-3000 tilt touchpanel. Total 106 units of APAD wall mount LCD controllers are installed throughout each of the meeting rooms for simple selection of discrete audio channels. Crestron touchpanels help to simplify the audio switching for background music.

Many world-known hotels will be opened on the Cotai Strip, including Four Seasons, Sheraton, St. Regis, Shangri-La, Traders, Hilton, Conrad, Fairmont and Raffles. With gaining support from The Venetian Macao, Crestron Asia will take part in the second phase of hotel expansion. Crestron integrated control systems will be installed in the conference rooms and Presidential Suites of Four Seasons.
