Visit Crestron at InfoComm Asia 2010 Experience Crestron at Booth 6A01

Crestron, being the world's leading manufacturer of advanced commercial control systems and home automation systems, is introducing innovative and absolutely impressive products and technologies at InfoComm Asia 2010

InfoComm Asia 2010 will start from Wednesday November 17 to Friday November 19 at Hong Kong Convention & Exhibition Centre. In this 3-day exhibition, Crestron features the application of integrated building technology and brings you newest products – *HD-TX3-F* and *HD-RX3-F* transmitter/receiver pair providing a simple, reliable solution to extend uncompressed HDMI, analog audio, Ethernet, USB HID and control signals up to 1000 feet over single multimode fiber and *PROCISE™ PSPHD professional 7.3 HD surround sound audio processor* and *PROAMPI-7X400 7-channel amplifier* which set a new standard for professional-grade, Multi-Channel Audio Processing for HD home theaters and corporate boardrooms. Other must-not miss products include DigitalMedia series - the first complete HD AV distribution system that takes HDMI to a higher level, and allows virtually any mix of AV sources to be distributed throughout the home from a centralized rack location.

Now, get a free pass by pre online registration at InfoComm Asia 2010 Official Website or contact your sales representative to avoid long lines at registration during InfoComm Asia 2010. Your admission badge will be waiting for you at the "Pre-Registered" counter of the show registration area located at the entrance to Hall 1, Level 1 of the Hong Kong Convention & Exhibition Centre.

This will be the most wonderful Crestron event in Hong Kong this year since it is also our 15th anniversary. Come and celebrate with us at booth 6A01! If you can't make the trip to Hong Kong then go to Crestron Asia Facebook Page for the event update.
